Dispersions production and R & D Laboratory: Via Tambroni Armaroli, 2 - 62010 Montelupone (MC) - Italy

Production Central Head Office: Via Grazia Deledda, 3 - 62010 Montecassiano (MC) - Italy

PROJECT LIFE GREEN SINKS : LIFE12 ENV/IT/000736

Notice board at the entrance of the Main Productive plant DELTA :
Via Grazia Deledda, 3 - 62010 Montecassiano (MC)

The notice board is titled "GREEN SINKS" and features the DELTA logo and the LIFE logo. It is divided into several sections:

- STARTING MATERIALS - Currently landfilled -**: Shows images of MMA, PMMA, and Mineral filler.
- FINAL PRODUCTS**: Shows a kitchen sink with lemons and a faucet.
- BENEFITS**:
 - Reduced consumption of virgin raw materials
 - Preservation of landscapes and primary resources by reduced mining of quartz and cristobalite
 - Recycling of pre- and post-consumer mineral waste withdrawn from landfill
 - Reduced fuel consumption for transport of minerals, nowadays rare in Europe, supplied from abroad
 - Reduced landfill of industrial scraps and refuses
- RECYCLED RAW MATERIALS**:
 - Recycled MMA
 - Recycled PMMA
 - Recycled Mineral Filler
- GREEN SINKS:** Sinks manufactured with recycled organic raw materials and recycled mineral fillers.

At the bottom, it includes the DELTA s.r.l. logo, contact information for the productive plant and main productive plant, and the website www.greensinks.com.
